MEMORANDUM FOR:

25X1A6a

SUBJECT : [REDACTED] Security

25X1A

Bill:

I hope you won't view this note as trespassing on our tenant-landlord relationship but I am becoming a little concerned about the functioning of the cameras protecting [REDACTED]. On several occasions recently when either Lew or I have visited [REDACTED] one (or more) of [REDACTED] cameras has been inoperative. I gather we have had more or less continuing problems along this line; I'm sure your guard post has kept you posted on camera maintenance problems and that you share my concern for the security of the materials in [REDACTED].

25X1A

25X1A

I wonder whether we are confronted with any basic design deficiency in the camera systems, one which will continually plague us so far as the security of the building is concerned. What do you think? Or are we contemplating any added maintenance steps which will promote more "up" time on the cameras?

25X1A6a

Let me reassure you that I have no wish to meddle in your operation [REDACTED] but I am at your disposal and shall be more than happy to do whatever I can at this end to help you secure improved functioning of the [REDACTED] camera systems.

25X1A

Please drop me a line on this.

25X1A9a

[REDACTED]
Chief, Support Services Staff
